

# SCHOOL'S OUT FOR THE SUMMER!

Summer at Seabury week-long day camps are designed for students who want to have fun learning and exploring new ideas.

Our diverse catalog of activities allow for creativity, discovery and fun in a safe, nurturing environment.

Camps are available to students entering kindergarten through fifth grades in the 2013-14 school year, with half and full-day options. Half-day camps cost \$150 per week. Full-day camps cost \$250 per week.

Before and after care are available from 7-9 a.m. and 3-6 p.m. for an additional fee.

Under-enrolled camps may be subject to cancellation.

Take a look at our catalog. For more detailed descriptions and a registration form, visit our website: [www.seabury.org](http://www.seabury.org) or call the main office at (253) 952-3111.

**MIMES and BUGS**

*have in common?*

It's  
**SUMMER AT  
SEABURY**

Enriching summer learning experiences for  
students entering  
kindergarten through eighth grades

### Group A:

For students entering kindergarten through second grades in fall 2013

#### Week 1, June 24-28: Writing and Drama,

**Offered by: Tamara Ritchie, Seabury School teacher**

Students will have a hilarious time writing, creating and performing a parody of a familiar story. Students will all contribute to writing a script. Each student will then learn essential theater skills through games and activities.

#### Week 2, July 8-12: Kitchen Chemistry

**Offered by: Janice VanRavenswaay, Seabury School teacher**

Young scientists will be using their all their senses to explore the physical world around them with simple pantry items. We will mix, bake, and blow up our experiments as we observe physical and chemical changes and repeat with a bunch new questions to test. Please let teacher know of any food allergies.

#### Week 3, July 15-19: Art Tells a Story and Mario's Magical Mimes, Offered by: Sarah Van Orsow, local teacher, and Mario Lorenz, former Summer at Seabury teacher

Part art, part story telling this class will explore myths and legends from around the world and inspire you to create your own stories. In the afternoon, students will learn the basics of miming and circus arts. \*\* This class is offered as a full or half-day option.

#### Week 4, July 22-26: LEGO® Camp

**Offered by Dan "The LEGO® Man" Parker, City Blocks**

Here's your chance to spend a week in a room filled with LEGOs, building with one of the few Certified LEGO professionals in the WORLD! Create cities and models and more, while learning new building tricks and techniques!

#### Week 5, July 29– Aug. 2: Around the World

**Offered by Ruth Maitlen, Seabury School faculty**

Open your passport to adventure learning Geography! Travel the world using Google Earth to explore many fascinating locations, learn about different cultures through art, story, recipes and song and design your own ultimate vacation.

#### Week 6, Aug.5 - Aug. 9: Colors of the Rainbow

**Offered by Becky Young, Seabury School Librarian**

A week devoted to colors! We'll explore a new color every day as we read color-themed books, study color theory – the science of color, mix colors, make colorful art and maybe even cook and eat some colorful foods.

#### Week 7, Aug.12 - Aug. 16: Buckets of Fun with Fabric and Food, Offered by Chris Meinhart, former Summer at Seabury teacher

Summer fun and learning starts here with painting fabric hats, decorating flip-flops and making t-shirts and scarves with different folds and ties and new coloring techniques. We'll make our own ice-cream, sorbet and other cool healthy summer treats.

### Going Buggy

**Offered by Becky Young, Seabury School Librarian**

Insects and spiders are creepy, crawly and completely fascinating. Join us for a week of bug study, bug art, bug games, bug books and more.

### Group B:

For students entering third through fifth grades in fall 2013

#### Week 1, June 24-28: Rockets and Duct Tape

**Offered by returning Summer at Seabury teacher**

**Todd Ritchie** Students will build rockets of all types during the week, from water rockets to balsa wood and rocket engines. In the afternoon, students will use a variety of duct tape colors and patterns to create inventive duct tape products. \*\* This class is offered as a full or half-day option.

#### Week 2, July 8-12: Cryptozoology

**Offered by Paul Gonzenbach, Seabury School teacher**

Bigfoot sighting alert! This week, learn about and do projects related to cryptids, including Bigfoot, the Chupacabras, Moth Man and more.

#### Week 3, July 15-19: Mario's Magical Mimes and Watercolor Painting, offered by Mario Lorenz and Adam Botsford, former Summer at Seabury teachers

Students will learn the basics of miming and circus arts. In the afternoon, students will learn about the

history of watercolors and will learn how to use watercolor paints.

\*\* This class is offered as a full or half-day option.

#### Week 4, July 22-26: Chemistry Matters

**Offered by Paul Gonzenbach, Seabury School teacher-**

Explore the nature of matter! This week will be filled with fun, hands-on activities that demonstrate principles of chemistry, and capped by an impressive demonstration by chemists from PLU.

**Craft Crazy, offered by Maura Toohey, former**

**Summer at Seabury teacher** Join other craft lovers for

a week of crafting. Class includes journal making, altered book art, duck tape projects, print making with found objects and more. Each camper will be encouraged to make one craft project that will be donated to the backpack meal program at The St. Leo's Food Connection.

#### Week 5, July 29– Aug. 2: LEGO® Camp

**Offered by Dan "The LEGO® Man" Parker, City**

**Blocks** Here's your chance to spend a week in a room filled with LEGOs, building with one of the few Certified LEGO professionals in the WORLD! Create cities and models and more, while learning new building tricks and techniques!

#### Week 6, Aug.5 - Aug. 9: Music Camp and All

**Cards, All the Time, offered by Marion Head,**

**Seabury School teacher, and Suzanne Messinger,**

**local musician** Students will discover a different style of music every day while learning to sing in a group and solo. In the afternoon, students will learn and play different card games including Hearts, Spades, Solitaire, and Rummy! \*\* This class is offered as a full or half-day option.

#### Week 7, Aug.12 - Aug. 16: Let's Go Make a Kite and Geology, offered by Karen Bell-Hansen and Noah Griffin, former Summer at Seabury teachers

Have you ever wondered how to make paper fly?

During this camp, students will make and fly kites out of different materials. In the afternoon, students will play with geodes, do geological experiments, and learn about the wonders of Geology! \*\* This class is offered as a full or half-day option.
